

## **CAMP TESTIMONIALS**

*"I am writing this letter to let you know how much we have enjoyed and learned from participating in your Hungarian style boot camps and tournaments that you have been offering in Victoria B.C. Canada. We have gained so much knowledge from participating in, and helping to conduct camps under your guidance since 2001. You are consummate professional and innovator when it comes to coaching water polo, conducting camps, and hosting tournaments. We have learned so much, in so many areas it is difficult to put into words the impact you have had in the development of our College and club programs here in the Southern California area."* **Marc Ruh**

*"Ferenc might be the most innovative and imaginative coach I know. When he works at our camp not only do the players hang on every word, so do the coaches."* **Mike Schofield**

*"Ferenc has been one of the most influential coaches in my personal and professional development. Like me, numerous US coaches and athletes have been helped by him through his involvement with camps and clinics. He has been a mainstay at the Naval Academy Camp and assisted me with several camps that I helped to direct. In addition, he has always been willing to host a US Coach to help out at his summer camp or with his club to further that coach's development. I have been one of the fortunate ones to have been on the receiving end of his good-hearted mentoring and it has made all of the difference in my career."* **Todd Clapper**

*"A sound knowledge of and the ability to execute both quickly and correctly the various fundamentals of water polo are absolutely essential to successful play. No system of play will be effective unless it is based on the sound execution of the basic fundamentals and no one teaches the fundamentals of water polo better than Ferenc."* **Bill Barnett**

*"I can't tell you enough how coming to your camp has improved my coaching. I use the complex training technique all the time and my athletes love it. For most of them it is completely different from where they come from (swimming laps). I was just named the Zone 5 Juniors Boys coach for my area. So I am very excited in taking on that challenge...  
...Thank you for the huge impact on my coaching career. Not only for your knowledge, but for your love and passion for the game. It carried over into me and my players."* **Brian Frickies**

*"I really enjoyed working with you this past week at the Navy Water Polo Camp. You have such a great teaching style and have such a presence with the kids. I am excited about my up-coming women's water polo season and pre-season because I have really learned a lot from you and am going to try and implement a bunch of your drills with my players this year. Thank you for taking the time to explain things to me and for all the tips. I hope our paths cross again."* **Becky Hong**
