

WATER POLO FIELD TRIP FOR YOUR CLASS

Dear Teacher,

Saanich Water Polo School hosts Water Polo Phys Ed sessions for grade 6-8 at Commonwealth Place Pool Tuesdays and Thursdays year around between 10:15 am and 1:15 pm. We have openings for classes to register and we encourage you to bring yours! Sessions are 45 minutes long, instruction and equipment is supplied.

The cost per session is \$110/class. (In most classes this works out to less than pool admission rates per student).

Water Polo is a great physical education opportunity for kids, and one that kids do not routinely get exposed to. They can, with your assistance!

Many kids that have gone through the local Water Polo program have come from initial phys ed class introduction. They went on to pursue water polo at a competitive level and represent us as a member of the Canadian National Team. Our goal is to find talent to integrate into our program through initial introduction through Phys Ed Classes

Teacher participation is not required for the sessions, however you may join in if you wish. For your convenience I have attached a sample Water Polo Field Trip Form to send home to families. This form is editable and will be sent to you via email if you wish.

For more information, and pictures, please go to <https://www.waterpoloschool.com/pe-class-at-scp>

For more information you can contact Ferenc Vindisch head coach at 250-514-9236 or at waterpoloschool@shaw.ca
